

PRONETS

ONE technology solution

Got DATA? Protect IT!

What's YOUR Disaster Recovery Plan?

- Here's Dilbert's
- 93% of companies that lost their data center for 10 days or more due to a disaster filed for bankruptcy within one year of the disaster, and 50% filed for bankruptcy immediately. *(Source: National Archives & Records Administration in Washington.)*
- 20% of small to medium businesses will suffer a major disaster causing loss of critical data every 5 years. *(Source: Richmond House Group)*

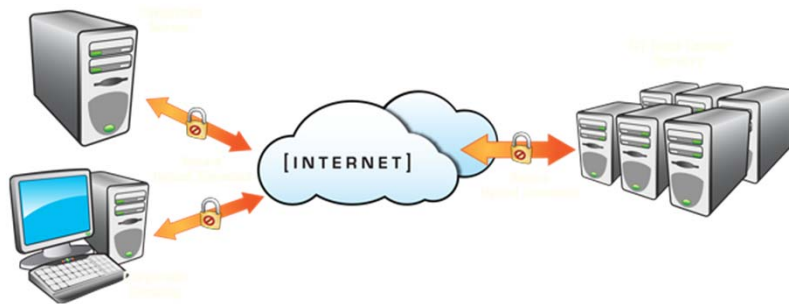

Common Data Repositories

- ❑ Local Computer – Outlook, My Documents, Local Database
- ❑ Network Share
- ❑ Network Database
- ❑ Mobile Device

Common Backup Methods/Devices

- Straight data copy
- Virtualized/image entire drive
- Backup Management Software to local device
- Backup Management Software to off-site location
- Mobile device

Six Minimum Actions

1. Make sure you are backing up your files every day
2. Check your backups on a regular basis to make sure they are working properly
3. Keep an offsite copy of your backups
4. Make sure your virus protection is ALWAYS on and up-to-date
5. Set up a firewall
6. Update your system with critical security patches as they become available
