

## Position: Freelance IT Technician

### **About the Company:**

Professional Networks is an IT Services Provider for small to medium-sized businesses.

### **About the Position:**

We are hiring an experienced Systems/Network Administrator to do both onsite and remote IT support on a freelance, per job basis. Our client base is within a 60-mile radius of Galax, VA, mostly in the southwest areas of Wytheville, Pulaski, Christiansburg & Blacksburg. Our company has been in business since 1998 and we have a solid group of Help Desk technicians and good documentation to support our field technicians.

### **Job Responsibilities:**

Example projects will consist of configuration, deployment and network planning & troubleshooting for Windows servers, workstations, routers, firewalls, Wi-Fi devices, switches, VLANs, VPN and multi-function printers on various hardware brands such as Dell, HP, Cisco, SonicWall and Ubiquity, among others.

We require clear, concise documentation on each project contracted to a professional freelancer.

### **Compensation:**

Compensation will be based on a per hour rate and can be negotiated during the interview.

Please submit resume to [position@pronetsinc.com](mailto:position@pronetsinc.com)
